Gateway Alliance

About us...

The Gateway Alliance is a school company created and led by a group of primary schools and academies from across Warwickshire. We are primary school specialists and work together to provide high quality professional development, training and support which enhances teaching and learning and supports the delivery of improved outcomes for children. We are currently supporting more 250 schools across Warwickshire, Coventry and the surrounding area, through our professional learning activities and School Direct programme.

Why Choose Gateway?

Affordable...

Gateway aims to ensure that all of our training and events are affordable to schools. We are a not-for-profit organisation and always ensure that we keep the costs of our programmes to an absolute minimum, whilst continuing to bring you the very best speakers and use experienced facilitators with a proven track record of successfully supporting school improvement.

High Quality...

We use a comprehensive quality assurance framework to do all we can to ensure that our training programmes and events are of the highest quality. We only use high quality trainers and facilitators who have a track record of exceptional school experience and in developing and delivering high quality CPD opportunities. We always aim to offer the highest quality professional learning programmes and, based on feedback we received last year, 97% of attendees rated our events as good or excellent.

Responsive & Relevant...

As an alliance of primary schools we are well aware of the challenges that schools currently face. We work hard to ensure that all of our training and events are relevant and up to date in their content in order to support schools to develop their staff effectively to meet the needs of current and future learners. We are also happy to work with groups of schools and academies to create bespoke CPD programme that directly meet your needs. Please get in touch if you would like to speak to us about this further.

Impact ...

As a group of schools we know that there is nothing more frustrating than investing in professional development activities for your staff that don't impact on your school. We are therefore continually looking to refine and improve our offer, in response to your feedback, to ensure that all of our activities have a practical impact on the practice of those attending, their school and pupils. We work closely with our event speakers and facilitators to ensure our CPD offer is in-line with the DfE National Standard for Professional Development.

Primary Core Offer 2019-20

Gateway Alliance

Overview:

The Gateway Alliance Primary Core Offer comprises a range of professional learning opportunities to support a wide range of key staff in school. Gateway have been offering a CPD programme to primary schools across Warwickshire since 2012 and we are continually adapting and improving our provision based on feedback from schools. This year we have continued to develop our comprehensive offer, which now includes support for senior leaders, subject leaders, SENCOs, early years specialists, classroom teachers and new or recently qualified teachers.

This document provides an overview of our Core Offer programmes that will be taking place during the 2019-20 academic year. We do offer a range of other programmes and events, outside of this offer, which we will share with schools throughout the year. For the most up to date information about our programmes and support please visit our website at www.gatewayalliance.co.uk or follow us on social media @gatewaywarks

"We have bought into the Gateway Alliance CPD offer since its inception, which speaks for itself, and our budget has been helped in more recent years as the Alliance have made it possible for our consortium to buy the package at a reduced rate. We have been particularly pleased in recent years with the quality of the Leadership training and the Early Years offer: these have really inspired us, answered questions and moved our own learning and practice forward."

Margot Brown (Former Head Teacher)

"The Gateway CPD programmes for myself and my staff are always of the highest quality. There is so little out there now to ensure that your staff keep up to date with various aspects of education but signing my school up to the core offer, means I know that their professional development will be of a good standard. I would never miss out on the Gateway core offer for my school."

Louise Barrass (Head Teacher)

*"The Gateway Alliance provides high quality continuing professional development opportunities for **all** members of staff, from Newly Qualified Teachers at the beginning of their teaching careers to experienced senior leaders - Gateway's range of training offers inspirational opportunities for all and is excellent value for money."*

Juliette Westwood (Executive Head)

Testimonials

"The quality of speakers and agenda for support from the Gateway Alliance has always been superb and consistently meets our needs for high calibre CPD for staff at all levels - from NQT to headteacher. Our staff look forward to attending meetings and conferences and the feedback from these events is never less than good and is usually great. I always recommend the Gateway Alliance to other colleagues."

Julia Wallace (Head Teacher)

"We have subscribed to the full range of CPD offered by the Gateway Alliance and have always received very positive feedback from delegates who have attended. The conferences organised for Leaders have always had really motivational speakers who inspire you to want to go back to school and put those ideas into practice. The service is always very efficient and professional. I would highly recommend them."
